Welcome to our 17th Annual Bull Sale! Thanks for taking a look at our catalog, we hope you will join us in person at the ranch OR online **March 15, 2024**. We are offering 36 yearling bulls this year at our Opening Day Private Treaty Sale. We have been blessed with quite a bit of moisture this last Spring and Summer, producing a lot of grass and hay. This mild open winter does also help on the haystack.

The kids are keeping us on our toes! Aubree is in 5th grade and is busy with her animals, basketball, and Livestock Judging - her team is doing great! Holden is in 2nd grade, basketball, and 4-H - he will take his first Red Angus heifer to the county fair this year!

Here at Laubach Red Angus, we strive to produce bulls that won't fall apart during the first breeding season. We feed our bulls to fill-out properly so they will have better longevity! When you buy a bull from us, he will be ready to go straight to work.

We do not breed exclusively for EPDs. Our focus is on producing the complete package with breeding sound, maternal, muscling, milk, and of course, a great disposition that we would utilize in our own herd. Our priority for our operation is to offer quality at the right price.

When you purchase an animal from us, we know you are putting your faith in our program. We are always here to help with any questions you may have. Please let us know how we can better serve you. We love showing our cattle, so stop by for a visit anytime!

Come on down to the ranch on the 15th to view and bid in-person or you can bid online at

www.FrontierLiveSale.com.

Thank You for your interest!

-Marvin, Ashley, Aubree & Holden Laubach

RED ANGUS MARKETING PROGRAMS

How to Enroll in FCCP and AA

1. Contact the Red Angus value-added department at 940-477-4593 and complete a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

PARAMOUNT

Now is a paramount time to verify your genetics in the Feeder Calf Certification Program. The Red Angus Live Animal Specification, recognized by the USDA, acknowledges **Red Angus are genetically Angus and meet requirements to be included in many Angus branded-beef programs.**

**Genetics, not hide color,
qualify an animal as Angus.**

—Terms & Conditions—

1. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

2. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

3. ANNOUNCEMENTS

Announcements from the auction block shall take precedence over the sale catalog and/or any additional printed information regarding animal(s) sold.

4. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal in accordance with prevailing State/Federal Regulations.

5. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

6. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal, after settlement has been made.

7. BULL GUARANTEE

Bulls will be wintered free of charge until April 1, 2020. Before delivery, they will be fertility and soundness tested by a licensed vet and will be guaranteed through the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bull. Please notify us as soon as possible if injury should occur. This is not an insurance policy nor does it cover neglect or mismanagement. We will be retaining a 1/3 semen interest on some bulls, buyer has full possession and salvage value.

8. LIABILITY

Everyone attending this sale, do so at their own risk. owners, clerks or other helpers do not assume responsibility, legal or otherwise, for damages, accidents or property loss that may occur.

9. DELIVERY

All purchases are the buyer's responsibility as soon as they are sold. All reasonable care will be provided for the bull's care before delivery. There will be an insurance agent available if you wish to insure your purchase. Bulls will be delivered free of charge in Montana and surrounding states. All other deliveries at cost.

10. BREEDING GUARANTEE

All cattle are guaranteed to be breeders. We reserve the right to test any animal for 90 days after it is returned to us before making adjustments.

The seller will settle any disputes on bids and his decision will be final.

The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

* 100% of females' bid price will be due on sale day and delivery arrangements may be made, 50% of the bulls' bid price will be due on sale day. The balance will be due when they are guaranteed fertile and sound, and delivered in March or April. If the bulls do not prove out, the down payment may be refunded, replace with a bull of equal value, or credit towards another bull. Feed costs will be sellers' responsibility until delivery.

These cattle do sell in accordance with the Sale Terms and Conditions set forth by the Red Angus Association of America.
